**Here is a photo attached of an old Veteran man. In the first photo is his house. His name is Chaxoyan Vardges. He is 89 years old. He lives all by himself. His pension is only 48\$ per month. When he moved to the House of Hope we had to throw away all his old clothes since he was having lice everywhere. Now he is all clean washed and happy. When we were taking him to the House of Hope he was crying and singing from excitement.  
Sister Veronika.**

**This Summer, the Armenian Director of Veteran Affairs pleaded with Sister Veronica to take in around 50 WWII Veterans who were suffering unbearable living conditions because of the heat wave that covered most of Eastern Europe and the Middle East. They had no where to take them. When she went to visit the Veterans she found some of them suffering from starvation, covered in lice, living in horrible conditions like the picture upper left. Because of a donation we were able to bring in 8 of them to the House of Hope for the Summer. Without sponsors, they will have to go back to their miserable living conditions. This would be a tragedy . These men ( and some women) were our allies in WWII, and are in the final years of their lives. Most don't know Christ, but Sister Veronica will surely lead them to the Savior! We need a miracle for Sponsors, so they can remain at the House of Hope.**

**For those who saw the sad pictures in our last News Letter, this lady to the left will be familiar. This is Sister Star, whom we visited on our last trip to Armenia. She was living in an old metal container and was suffering from the effects of a stroke. Now she has a sponsor and... well the happy face tells it all!**

**These Elderly WWII Veterans have been bathed, and given clean clothes that was sent over in the last container from F.G.I.D.C. It is hard to imagine that just days before, they were unwashed, and their clothes were old and dirty, and suffering in the unbearable heat. Now when they are told about Jesus, it will be more than just words! They will know the Love of God is real, for they are experiencing it thru God's people.**

**ANOTHER NOTE FROM SISTER VERONICA WHO IS CONSTANTLY SEARCHING FOR THE POOR ELDERLY IN ARMENIA.**

*P.S. There is a Jewish congregation in Armenia where it has many needy elderly .Many of them turned to us for help. I am praying for the Lord to open doors.*

*Sister Veronica*

**PLEASE KEEP HER AND THE WORK IN PRAYER**

**SCHOOL OF CHRIST  
FIJI ISLANDS**

Brother Bijend Prasad is currently running the School of Christ in Fiji. The South Pacific Island Country is made up of hundreds of Islands.

After completion of this first School, a second will be started on another Island.

Eventually all South Pacific Island Countries will be reached with the Gospel in Pentecostal power! Fiji has a military Government and a large Muslim and Hindu population. Keep these Schools and those who labor in them, in your prayers.

We are planning to go and bring all the preachers together on the Island of Tonga and do meetings with them during the day and evangelistic meetings during the night. After this a School of Christ will begin in Tonga.

**Please remember the need of a car for Armenian Pastor Vacheek. This brother is a soul winner and a great help to the House of Hope. The car they now have is 21 years old. They use it to travel to the rural villages to preach and plant churches. \$10,000.00 will purchase a good used car. Please**

*Sister Dorothy McCue went home to be with the Lord this past September. She was a faithful Pastor's wife (Rev. William McCue) for many decades. Sister McCue had a heart for missions and was a faithful supporter and promoter of the House of Hope at her church. She will be truly missed.*
